

'Safety Measure COVID-19 Precautions'

As every country in the world adapts to new travel standards and expectations, we're improving the way we operate our face to face training events. In collaboration with our Hotel and Conference partners, we have extended our commitment to health & safety by putting into place the following measures:

- All our hotel partners have implemented reduced contact at check-in, with touchless transactions, sanitised key-cards and paperless check-out.
- All public spaces and facilities are now being given enhanced deep cleaning procedures, specifically in the 'high touch surface areas.'
- Strict social distancing measures are now in place and new standards have been implemented for meals, including buffets, banquets and room-service.
- Deep and more frequent cleaning of meeting and event spaces is happening in every meeting room we occupy.
- Access to ample hand sanitizer stations and socially-distanced seating arrangements have been incorporated into all meeting room layouts.

Our Pledge:

- We will continue to observe and abide by local and International directives regarding COVID-19.
- We will always follow the advice of health care professionals.
- We will never knowingly take any action or make any omissions that will put our clients, colleagues or partners at unnecessary risk.
