# Online Training Calendar 2020

Learning is a continuous journey be it in a sophisticated venue or the comfort of your home/office, TEI offers high impact & industry specific learning solutions through its virtual “**LIVE Online training**” platform.

Our teams of highly skilled trainers have already adapted the learning modules & outcomes to suit delivery in a virtual medium. We follow the same principle in the virtual training rooms & our training modules are based & focused on the 70/20/10 principle. Knowledge sharing is a key performance indicator for the success of our training sessions & our online course moderator & trainer ensure that delegates are kept engaged through out the session.

We have adapted all our industry leading public & in-company customized training programs to suit the virtual learning & development platform & are also offering a series of courses purely on the “Online” platform
