 Talent Expertise
INTERNATIONAL

The CEO's Desk

I am delighted to present our comprehensive calendar of training & development programs, scheduled for delivery throughout 2022.

This year, we have added several new and exciting destinations, where delegates can experience world class training, delivered in some of the most spectacular locations on earth. These include Mauritius and Zanzibar, both situated in the Indian ocean. Nairobi was a new destination for us during 2021 and it has proven to be very popular with many of our clients. We continue to operate in all of our well-established locations, including the United States and Canada and of course our home city of Dubai.

Since our formation in 2013 we have built an enviable reputation for providing exceptional standards of service to some of the worlds most respected organisations. As we approach our tenth year in operation, we continue to evolve and are always seeking new ways in which to provide added value to our clients.

At the heart of everything we do is our unwavering commitment to work across a wide variety of sectors, bringing humanity and a true sense of personal achievement back into what is very often a challenging and stressful work life. Creating the opportunity for people at all levels to take time out, reflect and focus on what is really important to them right now, is what we do best. By doing this, individuals and their respective organizations experience sustainable benefit both personally and from a corporate perspective.

In addition to providing a broad range of 'Public Programmes' as detailed in this Training Calendar, we provide bespoke interventions to many of our clients. We do this through a number of planned activities which include:

- ❖ Designing and administering competency and criteria based 'Assessment and Development Centres' that support recruitment decisions and skills development strategies.
- ❖ Providing 'Executive Coaching' for senior leaders and managers, which sharpen their focus to deliver outstanding results in the ever-changing competitive business landscape.
- ❖ Delivering bespoke Leadership and Management Workshops, which make certain, the top team are always at the top of their game.
- ❖ Developing an integrated training & development strategy for roll-out to the entire population of employees at all levels.

As we emerge in this post pandemic world, 2022 looks set to be a fantastic year with great opportunities for all. I sincerely wish you success in 2022 and I look forward to personally welcoming you on to one of our programs sometime soon.

John Philp CMCIPD
Chief Executive Officer
